

YouTube API Use in WellnessHub Platform

1. Use Cases in WellnessHub

- Yoga Video Integration ? Embed guided yoga sessions based on user's wellness plan.
- Bhajan Playlist ? Play devotional bhajans personalized to the user's spiritual preferences.
- Meditation Soundscapes ? Provide calming music or chants using YouTube as the source.
- Educational Snippets ? Show videos on Ayurveda, pranayama, and mindfulness practices.
- Daily Wisdom Feed ? Fetch short clips on spirituality or ancient texts via curated channels.

2. YouTube API Cost Overview

The YouTube Data API v3 is free for limited usage:

- Daily Quota: 10,000 units/day (standard for free tier)
- Search request: 100 units
- Fetching video details (like title, views): 1 unit/request

Examples:

- 100 video searches/day or
- 10,000 video metadata fetches/day

Note: You can request a quota increase from Google Cloud Console if needed.

3. Copyright & Compliance Guidelines

Allowed:

- Embedding videos via official YouTube player.
- Displaying video thumbnails, metadata (title, views, etc.) fetched via API.
- Linking to videos directly.

Not Allowed:

YouTube API Use in WellnessHub Platform

- Downloading or hosting YouTube videos/audio yourself.
- Stripping or redistributing YouTube content outside their ecosystem.
- Replaying content without YouTube branding or terms.

Best Practices:

- Always use official embedding or in-app playback using YouTube-supported plugins.
- Respect YouTube's branding and copyright policies.
