

ChatGPT Installation Instructions

For macOS

1. Visit the Official Website: <https://openai.com/chat>
2. Click the 'Download for macOS' button or scroll down for the link.
3. Open the downloaded .dmg file.
4. Drag ChatGPT.app to your Applications folder.
5. Open Spotlight (Cmd + Space), type 'ChatGPT' and launch the app.
6. Sign in with your OpenAI account to start using ChatGPT.

For Windows

1. Visit the Official Website: <https://openai.com/chat>
2. Click the 'Download for Windows' button or scroll to find it.
3. Open the downloaded .exe file.
4. Follow the installation prompts to install ChatGPT.
5. Launch ChatGPT from your Start menu or desktop shortcut.
6. Sign in with your OpenAI account to start using ChatGPT.

Alternative: Web Version

If you prefer not to install an app:

- Simply go to <https://chat.openai.com>
- It works on any modern web browser on macOS, Windows, or Linux.
